THE RADCLIFFE CAMERA

The College is just a two-minute walk to the Radcliffe Camera, the most iconic landmark in Oxford. Designed by James Gibbs in a neoclassical style, it was built in 1737-49 to house the Radcliffe Science Library. Today it is home to reading rooms for the Bodleian Library, holding books from the English, History, and Theology collections.
PRINCIPAL’S WELCOME

THANK YOU FOR YOUR INTEREST IN JOINING OXFORD SIXTH FORM COLLEGE WHERE WE CELEBRATE AND WELCOME THE CULTURAL DIVERSITY, AMBITION AND GLOBAL OUTLOOK THAT OUR STUDENTS BRING TO THE COLLEGE.

Our students speak of the college environment as being a warm, friendly and very welcoming place. Whether in the classroom at college or in our boarding houses, all staff provide wonderful guidance and support to ensure students enjoy their time with us and go on to help achieve their personal and academic goals.

Alongside two-year A-Levels we offer programmes that are an alternative to the mainstream of education in the U.K. These programmes include BTEC Business, BTEC Business Plus – where students study an A-Level alongside their BTEC Business course, and a one-year A-Level programme.

Our students progress to a wide range of degree programmes at top universities including business management and economics; mathematics, engineering and computer science; medicine; law; art and creative media; history and international relations.

Our location in the very heart of the city of Oxford, with neighbours including University of Oxford colleges Oriel and Christchurch, is steeped in academic history and one that serves to inspire our students and us to build a successful future.

I do hope that you decide to join us and look forward to meeting you in the near future.

A-LEVELS

BRITISH A-LEVELS ARE GLOBALLY RECOGNISED AS A GOLD STANDARD IN EDUCATION - AN EXCELLENT PREPARATION FOR UNIVERSITIES WORLDWIDE.

TWO YEAR A-LEVEL
You will study three A-Levels over a period of two years, at the end of which you will be assessed with a short series of public examinations. The College offers over 20 possible subjects, and we will advise you of the best A-Level combination based on the degree you wish to study at university.

ONE YEAR A-LEVEL
The intensive style of teaching and the efficiency of the teaching method used at Oxford Sixth Form College enable us to prepare some students for A-Level examinations in just one year. This assumes that these students possess the required academic skills and, especially in the sciences, prior knowledge of the subject. A one-year A-Level course places greater responsibility on the student to study effectively.

5-TERM A-LEVEL (January start)
This programme is identical to the two-year programme, except that students begin their studies in January. As the course is a few months shorter, the first ‘AS’ year is studied in an accelerated six-month course from January to June, and the second ‘A2’ year follows in September as normal.

FLEXIBLE START DATES
Our teaching methods allow flexibility in starting courses after the start of term. All necessary steps are taken to ensure that late starters catch up with the class, without compromising their learning experience. Please enquire with us if you would like to explore this option.

"Because of the smaller classes there is more attention to individual students and the flexible timetables which has really helped me juggle my studies with racing."

– PAVAN, SINGAPORE, BTEC STUDENT AND FORMULA 3 RACING DRIVER
Why Choose BTEC?

When combined with academic learning in a school or college (or as a stand-alone course in further or higher education), a BTEC develops a range of practical knowledge and skills which help students to prepare for - and progress in - their chosen career.

For students with aspirations to attend universities such as Oxford and Cambridge, A-Level qualifications remain the gold standard, but a BTEC qualification is accepted by 95% of UK universities.
